ARTS

The Arts Society

Aims/priorities: The Arts Society is a leading arts education charity with a global network of over 380 local Societies, which bring people together through a shared curiosity for the arts. All grants from The Arts Society are intended to give access to the arts to those that wouldn't normally have access to them. We believe in Arts for All and will use our grants to make a positive contribution to people's lives through the arts.

We have identified three areas of giving that are in accordance with our charitable objectives and meet specific needs in the arts & heritage sectors.

- Young Arts - Young Arts programmes support a wide range of activities to introduce young people to and engage them in artistic experience and practice. They include: artists in residence; art lectures for students; funding visits to art galleries and museums; art exhibitions for young artists; equipment purchases; practical workshops; local Arts Week events; bursaries for individual students; and sponsorship for craft apprentices.
- Skills Development - This area is about projects and programmes that further the development and training of skills in the arts, crafts and heritage. There are no age limits to this as we believe that people of all ages benefit from acquiring and honing their creative and heritage skills.
- Regional Museums, Galleries and Arts Organisations - The work of regional and local museums and galleries is important in connecting people with their local heritage and arts; yet these institutions often struggle to raise funds for projects and internships during times of budget cuts. Our grants may support special projects, displays, internship or part-time posts, training and conservation activities. We will also consider applications involving regional and local theatres and performing arts spaces and groups.

Who can apply? Registered UK Charities with a turnover of £3M or less and Member societies of The Arts Society

Grant Amount: Last round was up to £3000. Next round opens at end of July 2019.

Andrew Lloyd Webber Foundation

Aims/priorities:

The Andrew Lloyd Webber Foundation's principle objectives are to promote the arts, culture and heritage for the public benefit. Funding is available to not-for-profit organisations, including charities, companies and community trusts, for projects in the areas of culture and the arts that make a real and ongoing difference to people's lives in the UK. Priority will be given to projects that enable people to develop skills and careers in heritage and in all areas of the performing arts (music, dance and drama) but other areas will be considered.

For the purposes of funding:

- **Real** means an appreciable and significant difference. For example, something that affects one person's life to a great extent, possibly leading to a significantly improved probability that the person will be involved in the Arts on an ongoing basis (ie, by having a career in the Arts) and something that affects many people's lives, (ie, through improved access to the Arts).
- **Difference** implies that the funding award contributes to something that would not otherwise happen, without the making of such awards. This might (but need not necessarily) include the overcoming of special difficulties/obstacles.
- **Ongoing** refers to something that is going to have a long-term benefit and an ongoing effect on people's lives, rather than 'an effect that is ephemeral'.

Who can apply? Not-for-profit organisations, including charities, companies and community trusts, based and operating within the UK, are eligible to apply.

Grant amount: Unlock grants up to £5,000, Enhance grants up to £10,000, Empower grants up to £25,000. It is expected that most applicants would have secured a significant proportion of funding prior to sending in their application.

Application process: Two stage process. Apply online by completing a short application form outlining your project. We automatically acknowledge by email and decide whether to take it further within 6 weeks. Ongoing deadline.

Move On Fund

Aims/priorities: The government is committed to halving the number of rough sleepers by 2022 and ending rough sleeping entirely by 2027. Whilst hostels and refuges provide a vital role in delivering temporary or emergency accommodation for rough sleepers, they are deemed unsuitable for longer-term housing. To meet this need, the Move On Fund has been established.

The Fund aims to free up hostel and refuge spaces by increasing the availability of affordable move-on, or second stage housing, for rough sleepers and those in hostel accommodation, and victims of domestic abuse currently living in refuges who are ready to leave this type of provision but might otherwise not be in a position to access the next stage of housing.

Capital grants are available towards the costs of developing move-on accommodation. Revenue funding will also be made available to be accessed by successful bidders for the ongoing tenancy support and facilitation costs to ensure that those accessing the accommodation are able to sustain their housing.

The aim is to support delivery of up to 879 bed-spaces in move-on housing across England (outside London). Priority will be given to proposals that will most effectively and most quickly free up space with hostels and/or refuges.

Who can apply? Bidding is open to all organisations that are, or intend to become, qualified as Homes England investment partners. This includes housing associations, local authorities, private sector developers and community groups among others

Grant amount: The programme has an overall budget of £50 million, which breaks down as follows: £44 million of grant funding and £6 million revenue funding for ongoing tenancy support, running through until 2020/21.
