

# Big Local Oldham Vision

## Our Big Local Vision for Clarksfield, Greenacres and Littlemoor for the next 10 years and beyond .... But it starts here and now

### People

In our Big Local vision the most important and valuable thing for our community is the people. That's all of us. This inspirational quote from our very first consultation day really sums it up –

'It's good neighbours that make the biggest difference to where you live. It's all those little kindnesses, all those friendly nods, all those little friendly things we do that add up to something special.

"If you could bottle that Luvvie, you'd be on to a winner!"

### New Opportunities

Our vision is to help people get involved with new activities. We want to have positive experiences trying out new things.

People here will have knowledge and confidence to improve the quality of their lives and change their neighbourhood for the better.

### Environment

Our vision is for our streets and our neighbourhood to be cleaner, feel safer and be more inviting for everyone.

We are working to make it a place we can all be proud to call home. We all need to be responsible for this.

### Wellbeing

Our vision is for a community in which people are happier, healthier, feel safe and feel good about their lives.

### Economy

Our vision is for a stronger local economy that makes the money go round.

We want to invest in the people who live here and give them a chance to make the most of their potential.

We want businesses to do well, everyone to be able to have what they really need and for this money to not be wasted

## Our Principles and how we'll go about it

### Involvement

By working together in ways that get as many people as possible involved, making decisions and making a real difference.

### Partnership

Our vision is to make changes that benefit us all. We know we can only make this area the best it can be if we all work together. We are working with people who live here, community groups, faith groups, Oldham Council and local businesses to make this a better place to live, work and play.

### Sustainability

We will work hard to come up with ways that make sure the good changes we have made will last forever, not just for 10 years.

**There's no magic wand – so it's up to all of us to make it happen!**
