

WAREHOUSE

How we want to be together

We use respectful language and treat others as we want to be treated

With kindness, understanding and patience, remembering everyone is different

We look for opportunities to help each other and the team

We recognise that things change and adapt really quickly at the Community Warehouse. Not everyone likes change, but we need to try to support each other in this.

We encourage a positive and enthusiastic attitude, a smile and friendly word can mean a lot

We ask that everyone helps to look after the building, tidy up after yourself and let someone know if supplies run low

You and your time is really important to the running of the Community Warehouse, if you cannot do something you said you were going to- please let someone know

We appreciate each others contribution, skills and time, say thank you and pass our experience on to others

We highlight and work together on issues, problems and ideas at our Monthly Meeting

We always start from a place of trust

Agreed on 19.1.21
