Who Cares?!

'Who Cares?!' is an original piece of music theatre created by Hearts and Minds Theatre Company that aims to inspire a new generation of carers and a culture of compassion and understanding in Tameside and beyond.

It follows the story of Chloe, a girl with eyebrows and attitude who alongside Dean, an unassuming sci-fi fan, ends up with the bottom of the barrel work experience placement – an elderly care home. Through their journey, this odd pairing fall in love with each other, and more importantly, the act of caring itself.
