So, who are we and what do we do?

Action Together is a membership organisation and there are currently 3,000 members across Oldham, Rochdale and Tameside. These, in turn, represent and support many diverse local needs and interests.

We are a charity whose purpose is promoting social benefit for the people who live in the communities we serve. We provide lots of different practical help to support local member groups and organisations.

Our work is divided into core functions:

Leadership and Advocacy

We lead and advocate for the Voluntary, Community, Faith and Social Enterprise sector in our communities to be heard

We empower people from diverse organisations and marginalised groups to be leaders and advocate for the communities or issues that are important to them.

We represent the sector in strategic spaces and advocate for more investment, sharing of power and decision-making involving the sector.

We ensure that community insight and community voice informs local decisions and influences key decision-makers and funders.

Volunteering

We support people and groups to make more of a difference, and give their time to the things that matter most to them

We believe that volunteering is at the heart of creating, supporting and maintaining stronger communities.

We develop and champion volunteering to empower more local people to share their skills, capacity and common purpose. Our volunteers are supported and recognised for their valuable contribution to local social infrastructure.

Investment

We secure investment that supports local action, removes barriers and helps to get funding to where it's needed most

Our funding approach works on two levels: our efforts to ensure that investment is secured for the sector and reaches the community organisations and projects that need it, and our holistic investment in the strength and sustainability of our communities through capacity building.

Capacity Building

We support groups and organisations to develop, grow and make a bigger impact in their communities

We work in neighbourhoods to build deep relationships with local groups and strengthen what they do.

We provide advice, practical training and development support to community organisations of all sizes, enabling them to become resilient, successful and sustainable.

Partnerships and Collaboration

We facilitate local action groups and networks to create a valuable and effective space for collaborative working and joint action

We bring together diverse perspectives to address the impacts and root causes of poverty and inequalities in our local communities.

We work in partnership with community groups, the public sector and other local organisations to influence system change and deliver social justice.

Our values

Action Together's values underpin all of our work: including its strategy, operational plan, workforce development and recruitment. Our values should resonate with the perception and reality of working with, and for, us as an organisation and, crucially, in our Trustees' role in the governance of the company.

Our values are to:

Believe it's possible – vision and ideas matter. We have confidence in the power of people and communities and strive to release their potential to create the widest possible benefits whilst promoting social justice

Strengthen others – we work in ways that strengthen people, places and partnerships. We achieve this by working collaboratively, sharing skills and developing relationships between people, groups and agencies

Be true – we are brave enough to share constructive insight in order to make progress. Our unique insight comes from our connections with, and amplification of, the diverse range of voices of people and groups that we work with

Our strategy to 2028

We launched our new five-year strategy in December 2022, to take us from 2023 -2028.

The strategy covers all of our core work in Oldham, Rochdale and Tameside, with these shared strategic priorities:

1. Strengthen social infrastructure for connected communities
2. Advance our approach to social change
3. Grow and transform as a local funder
